The Stay Cap Advantage

• **No-hassle** - Forget mounds of plastic wrap, tape, string, expensive foil and traps. These will connect to your mortar so you'll have them whenever you need them. They go on and off with ease. No clean up after the show!

• **Cost-effective** - Elimination of foil, tape, and plastic reduces the complexity of items needed for each show, saving valuable time and money during the July 4th season.

• **Durable** - Caps can be shot through up to 25 times. The cap pops off and stays attached. Keep your mortars dry even during multi-day setups.

• **Protection** - Sudden rain storms are no longer a panic. Stay Caps provide on-demand weather protection for your display. Also protects mortars from pests while in storage.

Take your show
to the next level

Specifications

- 3" size available and 4"-5"-6" Stay Caps planned for late 2016.
- Tested at 70 mph wind.
- Custom thermoset polymer for rubber type attributes and high UV rating.
